(SLMS)
INSPECTION RECORD**

Confidential Claim Retracted

AUTHORIZED BY:

DATE: 5/16/83

Mine Name (E135): Jackpile-Paguate Mine
Lessee (E24): Anaconda Minerals

Date of Inspection: May 21, 1986

Inspector(s): Mike Pool, BLM

Company Representative(s):

Inspection Type: Mining Related ☒ / XX* /
(check one) (FY86 E105)

Exploration Related ☐ / /
(FY86 E107)

Inactive Tract ☐ / /
(FY86 E109)

*Interagency Field Tour

Serial No. (E1)	Holder of Primary Tract Interest (E24)	Tract Type (E11)	Commodity (E9)	Inspection Time (E106, E108, E110)
Laguna #1	Anaconda Minerals	Lease	Uranium	1.0
Laguna #4	" "	"	"	1.0

Inspection Time: Preparation Time: 0
(calculation) Travel Time (both ways): 1.0
Onsite Time: 2.0
Reporting Time: .5
Clerical: .2
TOTAL: 3.7
(E106, E108, E110)

NOTE: If more than one tract is inspected on the same trip, the inspection should be prorated to all tracts inspected on a percentage basis. Show proration calculation on back. Example: Tract A and Tract B take 10 hours to inspect, but 75% of the inspection was on Tract A. Inspection time for Tract A is (75% of 10 hrs.) 7.5 hours and Tract B is 2.5 hours.

Was a condition of noncompliance encountered? Yes No

Was an undesirable event encountered? Yes No

NOTE: If "Yes" to either of the above, prepare the appropriate report.

Purpose of Inspection: Toured various portions of mine area including: P-10 facilities, Jackpile Pit, North Paguate Pit, South Paguate Pit (including SP-20), South Dump, S-Dump and protore stockpiles. Spotted two horses grazing on north side of South Dump. Animal trespass appeared to be heavy as evidenced by droppings and trailing along existing vehicle routes.
